

KYRKEKVARN - STRÅKEN

Lake Stråken, 30 km long, runs south from Kyrkekvärn. Canoeing on lake Stråken is suitable for both experienced and inexperienced. There are several prepared camps along the trail, free of use for the guests at Kyrkekvärn, which must be used. At those places you can find a space for your tent, fire/bbq-places, toilets (not with water) and woods (unfelled). The lake is also good for fishing, a fishing-licence is necessary and this you can buy at Kyrkekvärn.

Start at Kyrkekvärn and paddle a certain direction one way and back, or use our transportation-service at Kyrkekvärn where we can bring you to the south end of lake Stråken (Bottnaryd), from where you paddle one direction towards the canoe-centre.
